

Introduction

The Magpul Self Leveling Follower is a drop in replacement for the current issue USGI 30 round magazine follower. It incorporates a patent pending 4 way anti tilt design and 2% Teflon® additive for self lubrication and improved wear characteristics over time.

Generation 2 Design

These Magpul Self Leveling Followers are the second generation design and are identified by the color Burnt Orange and/or Subdued Gray.

USGI 20 round magazines

The Magpul Self Leveling Follower was designed to work with 30 round USGI Magazines and longer style “curved” 20 round magazines.

IMPORTANT-Test prior to use

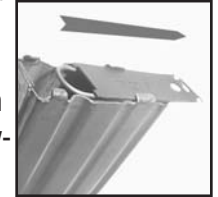

Due to varying specs between magazine manufactures, It is recommended to run through a quick check for binding and a full live fire test before tactical employment.

How to install the Enhanced Follower

1. Remove original floorplate from magazine by using a small screwdriver or similar device inserted into the hole in the floorplate and gently prying up to disengage the floorplate from the magazine body and at the same time sliding the floorplate forwards towards the front of the magazine.

2. Remove old Spring and follower from magazine body. Then remove old follower from spring.

3. Attach Spring to Enhanced Follower

4. Drop Enhanced Follower into magazine body.

5. Reinstall floorplate.

The Magpul Self leveling Follower is a drop in replacement for the current issue USGI 30 round magazine follower.

This "Enhanced" Follower features a patent pending 4-way anti-tilt design and 2% Teflon® additive for self lubrication.
